

JASON C. GOGELA

SUMMARY OF QUALIFICATIONS

- Skilled and experienced website designer - from concept and design to production and implementation
- Certified counterintelligence specialist and interrogator
- Experienced in producing multimedia content and online events
- Organized and efficient, capable of managing multiple projects while meeting deadlines
- Experienced in marketing, consumer research and targeting, and corporate identity fabrication
- Effective in areas relating to sales and building relationships
- Knowledgeable technician and administrator (PCs, enterprise class servers, communications equipment)

TECHNICAL QUALIFICATIONS

- Fluent with all aspects of web design and production including advanced HTML, DHTML, XML, Java, graphics design and optimization, and multimedia content delivery (RealMedia, Shockwave, Flash and Quicktime)
- Trained in the following programs: BBEdit, HomeSite, Bryce, Photoshop, Macromedia Suites (Fireworks, Dreamweaver, etc...), DeBabelizer, ImageReady, Illustrator, Premiere, Microsoft Office (Power Point, Excel, Word, Front Page, Project, Binder, Access), Analysts Notebook, COLISEUM, Requirements Management System (RMS), OILSTOCK, Modernized Integrated Database (MIDB), Demand Driven Direct Digital Dissemination (5D), DoDIIS AMHS Message Retrieval and Review, DoDIIS AMHS Message Drafting and Release, MATRIX, VITEC, Falcon View, Visual Basic, Broadsword, Piranha, Hammerhead, Quick Query (Q2), Concentrator Open Primary Server (COPS), Precision Targeting Workstation (PTW), Generic Area Limitations Environment (GALE Lite), Web Accessed Retrieval Portal (WARP), Research and Development Experimental Collaboration (RDEC), and IESS (Applicable certifications available upon request). Trained in a wide variety of diagnostic suites including Eurosoft, Toshiba, IBM, HP/Compaq, Dell, NEC, Apple, Seagate/Maxtor, Western Digital, ASUS, Tyan, and Acronis tools.
- Cross-platform and legacy systems proficient: Win3.1/95/98/NT/2000/ME/Server 2003 & 2008/XP/Vista/Win7, Macintosh OS, UNIX, LINUX, BEOS, OS X, Solaris, and DOS 3.0 - 7+
- Qualified and experienced in component level circuitry repair and personal computer construction, repair, maintenance, and optimization. Experienced in network systems administration and firewall implementation

EDUCATION

- | | | |
|--|--|--------------------|
| 1999 - 2006 | Colorado State University | Fort Collins, CO |
| <i>English</i> | | |
| <ul style="list-style-type: none">• Focused study of Anglophone cultures and literature from its origins to contemporary society. Studies included: period, genre and author studies, both country and regional specializations, literary criticism, and a variety of diverse writing styles/techniques. Additional coursework included: web development, astrophysics, computer science, and engineering. Graduated in Spring 2006. | | |
| 2002 | NIMITC Intelligence Training Center | Virginia Beach, VA |
| <i>Counterintelligence</i> | | |
| <ul style="list-style-type: none">• Coursework included: counter-surveillance, counter-espionage, elicitation, and interrogation techniques. Additional training in a variety of computer systems and conduits for dissemination and collection of intelligence. Due to sensitive nature of position and duties, no further information may be provided. Graduated second in my class, Fall 2002. | | |
| 2000 | National Imagery & Mapping Agency | Washington DC |
| <i>Geospatial Systems Officer Course</i> | | |
| <ul style="list-style-type: none">• Program focused on cartographic techniques, orthorectification of spatial imagery, and applications for these products to include operational and contingency planning. Other topics covered included: evacuation planning, search and recovery operations, tactical planning, and creating operational assessments. Graduated in Winter of 1998. | | |
| 1997 - 1998 | Air Force Intelligence Training Center | San Angelo, TX |
| <i>Imagery/Analyst Course</i> | | |
| <ul style="list-style-type: none">• Coursework included: collection and exploitation of two and three dimensional images using both color and black-and-white photographs, infra-red photographs and video, radar screens and synthetic aperture radar formats into cohesive intelligence products. | | |

Additional work in dissemination of intelligence via formal presentation and integrating products into interactive web applications.

- 1996 - 1997** **TACC Repair Course** **29 Palms, CA**
Basic Electronics & Systems Administration Course
- Coursework focused on electronic and communications equipment operation and repair, micro soldering, component level circuitry repair, and air control/anti-warfare operations and maintenance. Graduated first in my class in 1997.

PROFESSIONAL EXPERIENCE

2009 - Present **Site Image Studios** **Fort Collins, CO**
President

Developed websites and promotional programs for a wide variety of customers utilizing open and closed source back ends. Established Site Image Studios as a local high-end virtual identity management and promotions firm.

Contact: 970-430-5155

Web Sites: <http://www.siteimagestudios.com>

2007 - 2009 **Geek Squad** **Fort Collins, CO**
Geek Squad Agent

Developed problem-solving and trouble-shooting skills in repairing a large volume of computers with problems ranging from bad motherboards to severe viral infections. Recovered data from corrupted and/or formatted drives. Flashed BIOS/Firmware as needed. Managed precinct logistics.

Contact: 970-377-0077

Web Sites: <http://www.geek squad.com>

2006 - 2007 **Technographics** **Fort Collins, CO**
Geospatial Technician

Created electronic naval maps for the National Geospatial Agency (NGA) and US Navy. Orthorectified imagery which assisted me in translating and converting foreign paper charts to DoD electronic standards. Maintained company Notices to Mariners and Lists of Lights.

Contact: 970-224-4996

Web Site: <http://www.tgstech.com>

Summer 2006 **Special Application Robotics** **Loveland, CO**
Technical Writer

Wrote technical manuals for all S.A. Robotics equipment to be used in the decommissioning of the Windscale Pile 1 Nuclear Reactor in England. Additionally, under the direction of project manager Matt Cole, wrote feasibility paper for cutting methods and scope of the project.

Contact: 970-663-1431

Web Site: <http://www.sarobotics.com>

2005 - 2006 **Square I Technologies** **Fort Collins, CO**
Web Designer

Designed graphics, navigation, and layouts for a wide variety of customers. Presented designs to clients and upon approval processed graphics into XML strict templates.

Contact: 970-377-0077

Web Site: <http://www.squarei.com>

2004 - 2005 **NCS and The Research & Development Center** **Fort Collins, CO**
Network Administrator/Webmaster

While working at NCS, I helped migrate over 600 systems to Windows XP, troubleshoot the campus networks, and made any repairs necessary to the systems there on. I was then given a job as the webmaster of the R&D center, for which I designed and maintained several sites and capabilities. All projects were delivered ahead of schedule and contained capabilities beyond the initial concept.

Web Site: <http://www.ctss.colostate.edu>

2003 - 2004 **1st Marine Expeditionary Force** **Al Samawah, Iraq**
Counterintelligence Specialist/Interrogator

Developed the primary HUMINT database for Marine Forces stationed in Iraq. Exploited imagery for operations planning based on my interrogations. Conducted counter surveillance operations, wrote battle damage assessments, and created relational HUMINT assessments which were used to identify motivational centers of gravity. Coordinated exchanges of intelligence.

Contact: 303-677-6359

2000 - 2001

MFE Intelligence Directorate

Bobbligen, Germany

Geospatial Systems Officer

Designed and deployed the Intelligence Office's web page in the SIPRNET and planned many deployments of Marines. Wrote SOP manuals for many internal and external functions of the intelligence office. Was responsible for all mapping requirements at MARFOREUR and, as Liaison, built a relationship between that organization and the National Geospatial Intelligence Agency (NGA).

Contact: 011-49-7031-15225

Web Site: <https://www.mfe.usmc.mil>

2000

Joint Forces Intelligence Command

Norfolk, VA

Analyst

Attended certification courses in RMS, MIDB, AMHS, as well as other intelligence programs. Was responsible for analyzing imagery and completing a 1200+ target lines of communication study. Also developed web pages to integrate our imagery and research into one comprehensive project. Completed training as a collections manager and was formally certificated in a variety of collections and exploitation software. Certificates of course completion can be produced upon request. Special note: JFIC was formerly known as Atlantic Intelligence Command (AIC).

1997 - 2002

4th Force Imagery Interpretation Unit

Buckley AFB

Platoon Leader/Analyst

Duties and responsibilities at the 4th FIU included diverse disciplines. Served for two years as the Nuclear, Biological, and Chemical Weapons Training Non-Commissioned Officer (NBCNCO). Also assisted in training Marines to code in HTML, work effectively in Access, Power Point, and MATRIX Image Analysis Software. Trained Marines in general military subjects and helped to create the first integrated unit database using Access.

Contact: (303) 677-6359

1989 - 2005

Central Discount Stockbrokers

Fort Collins, CO

Trade Assistant

Responsibilities at Central Discount included answering phones, posting trades, and checking market movements. Currently holding a series 11 securities license.

Contact: (970) 223-4164

Website: <http://www.cdstockbrokers.com>

SECURITY CLEARANCE & LICENCES

I have held TS/SCI clearances with the Department of Defense. I have completed a PKI certification and held, among others, CIA source and GAMMA caveats. I was last read out in 2006. I also hold a series 11 securities license with the NASD.
