Objective

I am looking for a career I am passionate about and in which I can make a significant contribution. More specifically, I am seeking a job in either the defense intelligence or competitive business intelligence fields where my unique skill set will be of value.

Profile

Motivated, personable intelligence professional with real world experience in the technology and intelligence communities, as well as the training and academic qualifications necessary to both plan and describe operations effectively. Talent for quickly mastering technology. Web designer for over nine years. Proficient in web and program usability and sharing complex relational information with clients in the civil and defense worlds.

Experienced in quality assurance and quality improvement.

Goal oriented and excel at problem solving. Accredited interrogator and briefer and have broad experience in effectively communicating with people of different educational and cultural backgrounds. Writing experience includes: strategic level DoD threat assessments, technical manuals for the decommissioning of nuclear reactors, sales copy for growing businesses, and standard operating procedure manuals for a wide variety of operations.

Versatile and knowledgeable in a wide array of technologies. Adaptable and can work effectively in any kind of environment. Effective communicator and leader, excellent team-building skills. Easy to get along with.

Skills Summary

- ◆ Web Design
- ◆ Counterintelligence Operations
- ◆ Professional Presentations
- ◆ Report/SOP/Manual Writing
- ◆ Record Keeping
- ◆ Computer User Instruction
- ◆ Systems Administration
- ◆ Cross Platform Proficiency
- ◆ Project Management
- ◆ Data Conversion
- ◆ Component Level Electronic Repair
- ◆ Imagery Interpretation & Cartography
- ◆ Office Management
- ◆ Receiving & Posting Stock Trades
- ◆ Logistics Management

Technical / Program Proficiency

- ◆ Microsoft Office Suites
- ◆ Adobe Graphics Suites (Illustrator, Photoshop, etc...)
- ◆ Macromedia Design Suites (Dreamweaver, Flash, etc...)
- ◆ Bryce 5
- ◆ DeBabelizer
- ◆ HTML, DHTML, XML
- ◆ PHP, ASP.NET
- ◆ MySQL
- ◆ Many flavors of Autodesk CAD
- ◆ Demand Driven Direct Digital Dissemination (5D)
- ◆ Analysts Notebook
- ◆ Modernized Integrated Database (MIDB)
- ◆ COLISEUM
- ◆ Piranha
- ◆ Hammerhead
- ◆ Broadword IPL Interface
- ◆ Quick Query (Q2)
- ◆ OILSTOCK
- ◆ Web Accessed Retrieval Portal (WARP)
- ◆ Generic Area Limitations Environment (GALE Lite)
- ◆ Research and Development Experimental Collaboration (RDEC)
- ◆ DoDIIS Automated Message Handling System (AMHS)
- ◆ Precision Targeting Workstation (PTW)
- ◆ Concentrator Open Primary Server (COPS)
- ◆ Requirements Management System (RMS)
- ◆ Imagery Exploitation Support System (IESS)
- ◆ Multitude of system diagnostic suites

Professional Experience Highlights

COMMUNICATION: REPORTS/PRESENTATIONS/TECHNOLOGY

- ◆ Prepared complex time-critical HUMINT intelligence reports for DoD component commands and ad-hoc intelligence cells during Operation Iraqi Freedom while conforming to tight standards.
- ◆ Authored professional standard operating procedure manuals for MARFOREUR intelligence directorate.
- ◆ Designed and deliver web sites for local businesses, military commands, and academic institutions.
- ◆ Briefed military personnel on threat conditions and environment for African, European, and Asian theaters. Conducted tactical and strategic briefings for field grade and above military personnel.
- ◆ Wrote technical manuals for robotic equipment to be used in the decommissioning of the Pile 1 Windscale Nuclear Reactor. Also wrote project overview in laymen's terms using UK English.
- ◆ Rapidly learn and master varied computer programs; broad experience in repairing and maintaining enterprise level servers and workstations. Instruct classes on web design, electronic repair, Microsoft Office.
- ◆ Conducted daily intelligence briefings for staff officers, ad hoc intelligence cells, and component commanders.

Professional Experience, continued

TECHNOLOGY: USE/MAINTAINANCE/PROPOGATION

- ◆ Maintained repair bench operations and provide impeccable customer service:
 - ◆ Sold over 29% of all services on a team of 11 agents while repairing a large volume of computers.
- ◆ Instructed courses on web design and systems use:
 - ◆ Taught classes for students and faculty at Colorado State University's Weber Lab in web design and HTML.
 - ◆ Instructed joint military personnel in systems usage and imagery interpretation, to include variety of proprietary defense communication and production software.
- ◆ Produced websites for a variety of customers:
 - ◆ Created and maintained the website for Marine Forces Europe Intelligence Directorate on both the unclassified and classified networks.
 - ◆ Designed websites and logos at Colorado State University for the CTSS Computer Lab and The Research and Development Center for the Advancement of Student Learning. Both organizations continue to use those logos to this day.
 - ◆ Designed corporate identities, product packaging, web sites, and wrote sales copy for several successful local businesses.
- ◆ Helped migrate over 600 systems to Windows XP and a new e-mail client, troubleshoot networks, and made any repairs necessary to the systems at Network Computing Services.
- ◆ Trained help desk staff in assisting customers with computer and software use.

LEADERSHIP & SUPERVISION

- ◆ Lead Marine, Air Force, and other joint personnel in a variety of functions:
 - ◆ Planned and conducted various tactical operations during Operation Iraqi Freedom.
 - ◆ Served as platoon leader with the 4th FIIU and supervised Marine intelligence collection.
 - ◆ Conducted inspections, drills, and supplementary training when assigned an Air Force training unit at Goodfellow Air Force Base.
